Tanmay Kashyap

Founder & CEO @ Quantum Pillar
Patna, Bihar, India

Summary

I'm the Founder & CEO of Quantum Pillar, a parent technology company building software, intelligent systems, and digital platforms for the future. I'm currently pursuing a Bachelor of Technology in Computer Science and Engineering (Artificial Intelligence) while focusing on creating products that connect people, empower communities, and solve real-world problems. I'm passionate about technology, entrepreneurship, and building products with long-term impact

Experience

Quantum Pillar

Founder & CEO

May 2025 - Present (1 year 3 months)

Founded Quantum Pillar, a parent technology company focused on building software, intelligent systems, and digital platforms. I lead product strategy, software development, branding, and long-term company growth while building products that connect people and solve real-world challenges

The Hindu

News Intern

June 2025 - November 2025 (6 months)

Assisted with editorial research, information gathering, and content preparation while supporting day-to-day newsroom activities. This experience strengthened my research, writing, communication, and attention to detail in a professional media environment

DRDO, Ministry of Defence, Govt. of India

Research Intern

July 2024 - September 2024 (3 months)

Assisted in research by reviewing technical literature, preparing documentation, and supporting analytical tasks under the guidance of experienced researchers. Gained practical exposure to research

methodologies, problem-solving, teamwork, and professional communication in a collaborative environment
